Gents,

As you can see below, the Nation continues to come back with more questions - I did my best to answer this one - which was, "why are we including the low-water-crossings along the TNR as part of ther IFT Project?"

They also had questions on the survey, which (b) (6), (b) (7)(C) has been helping to address.

The Resolution for the TNR was a mod to the Fence Resolution - to enable M&R of a (b) (5)

(b) (5).

The requirement for low water crossings along the TNR is due to the IFT project. The improvements are necessary (b) (7)(E)

As a separate action (I.e. Improvement to the TNR) was part of the overall IFT Project, and the work is being planned, designed and funded as one holistic effort - we included it together with the tower Resolution and Right of Way.

Hope that helps!

(b) (6), (b) (7)(C)

I just pulled the current numbers together for the upcoming PMR next week...so they're summarized below.

(b) (5)

(b) (5)

They really now boil down to:

- Closed Cases
- Open Cases; Unresolved as to Just Compensation

(b) (5)

- Open Cases; Resolved as to Just Compensation, but Pending Title Resolution

(b) (5)

So, here is the breakdown:

(I know you didn't ask for # of acquisitions, but I'm providing them anyway. I think it's important to remind folks approx. 120 acquisitions did not require condemnations – i.e. prices were mutually agreed and there were no title issues.)

BREAKDOWN OF ACQUISITIONS:

- TOTAL # OF PF225 ACQUISITIONS BORDER-WIDE: **Approx. 400** (*330 of these required condemnation; see below*)
  - o **280 of the Acquisitions were in RGV** (*273 of these required condemnation; see below*)

BREAKDOWN OF CONDEMNATIONS:

- TOTAL # OF PF225 ORIGINAL CONDEMNATIONS BORDER-WIDE (*i.e. back in 2008/9*): **330**
  - o **273 of the Original Condemnations were in RGV**
- TOTAL # OF PF225 CONDEMNATION **CASES STILL OPEN** BORDER-WIDE: **136**
  - o **133 of the Open Cases are in RGV**
    - **72 of the Open Cases are Unresolved as to Just Compensation**
    - **61 of the Open Cases are Resolved as to Just Compensation, but Pending Title Resolution**
  - o **3 of the Open Condemnations are in DRT** (b) (7)(E)
    - **All 3 are nearly closed, but not officially yet; pending final resolution of administrative issues**

Any questions, please let me know.

Hi (b) (6), (b) (7)(C)

(b) (6), (b) (7)(C) briefed Senate Homeland Committee staff earlier today and PF225 real estate came up. Staff cited a 2009 GAO reported that stated CBP issues 96 condemnations related to PF225 construction.

In anticipation of the bill hearing next week, staff would like to know the following:

- How many total condemnation cases did CBP issue for PF225? Were these all in RGV/Texas?
- How many are still open?
- How many cases was CBP able to negotiate?
- How many were adverse?
- How many were friendly?
- How much (approximately) has CBP spent on PF225 real estate to date?

(b) (6), (b) (7)(C) would like to provide the number of landowners, NOT parcels...does this make sense? I might be miscommunicating his direction.

Here's the fun part, staff wants this information by 11:30 AM tomorrow (Friday, May 8). I told OCA we will provide what we can, but that it is unlikely we'll be able to pull everything.

Please let me know if you'd like to discuss further.

Thanks,

(b) (6), (b) (7)(C),

Please see attached for our IFT M&R Estimates - FY16-18 per your request. We briefed this to (b) (6), (b) (7)(C) yesterday; he is out of the office the rest of the week so he asked me to coordinate a time for our CTIMR engineer (b) (6), (b) (7)(C) and me to brief you on this document and answer any questions. I would like to do this tomorrow since both (b) (6), (b) (7)(C) and I are travelling next week.

Tomorrow after 1200 EST (b) (6), (b) (7)(C) and I are available. Please propose a time that works for your team and I will set up a conference call.

Thank you,

I'd like to perform a site visit to the K-1B project site the week of 3 February, which is a week or so after fence erection is planned to begin from Station (b) (7)(E). The new USACE engineering team will also be visiting the Canal Crossings project sites that week, which I would like to participate in. In addition, based on discussions yesterday with (b) (6), (b) (7)(C), my plan is also to meet with him and review various proposed TI repairs in TX & NM that are pending planning for CTIMR action. I recommend that I allot 3 days in EPT with Monday and Friday being travel days.

Estimated cost of the trip is about (b) (5). I have only coordinated this with (b) (6), (b) (7)(C) and (b) (6), (b) (7)(C) so far.

Please let me know if this trip is approved or you have any questions. Thanks.

In addition, based on discussions yesterday with (b) (6), (b) (7)(C), my plan is also to meet with him and review various proposed TI repairs in TX & NM that are pending planning for CTIMR action. I recommend that I allot 3 days in EPT with Monday and Friday being travel days.

Estimated cost of the trip is about (b) (5). I have only coordinated this with (b) (6), (b) (7)(C) and (b) (6), (b) (7)(C) so far.

Please let me know if this trip is approved or you have any questions. Thanks.

**Subject:** FOF (POE) Fence Requirements. (M&R and Improvements).

Team:

In conversations with FOF, OBP and FM&E it has been agreed too that FOF will pass on fence maintenance and repair requirements to BP at the Sector level to support fence between the Port of Entries (POEs). This requirements needs to be addressed properly with our Engineering Team and evaluated against the Fence and Gates priorities in your Work Plan.

It is advisable to ensure that the requirement is a priority and that it goes thru the RE/ENV checks just to ensure that there are no issues with performing M&R work.

In the event this is an improvement, please follow the proper process of developing a PRD once the requirement has been vetted thru Engineering and the TI Director.

If you have questions, please contact me.

Regards,

The final rollup cost associated with the subject WO, ie. (b) (7)(E) fence repair = \$ 653,291.94, which represents the direct subcontract cost captured for this specific work order.

NOTE : This amount does not include KBR PMO Cost, as it an allocated cost and is not captured at the Work Activity level.

Here is the TCA ROM for the fence requirements of (b) (5), (b) (7)(E) 2 VF to PF.

Note that this is a ROM, just like RGV.

I highly recommend that you caveat this with the simple facts that every terrain may consider different costs due to RE, ENV, etc.

The ROM is +/-50 to 100 so the numbers could change due to changes in engineering and construction requirements not to speak of any unknown ENV and RE issues that we encounter.

Note that we used the same spreadsheet as before and we boiled down the numbers to the requirements OBP specified. Assumptions are the same.

You have RGV 01-03 and now you have TCA ROM.

Look this over and call me with any questions.

# Takeaways and Actions for CTIMR

from Nov 20, 2012 IPR

- CTIMR –
  - Report # of WPs approved/completed to date in next IPR (complete)
  - Report Metrics of work completed (in process)
    - # of Fence Breaches repaired & avg. time to repair
    - # of miles of road maintained
    - # of lights/ballasts etc. replaced
    - Acres of Vegetation cleared
    - Cubic yards of debris removed
  - Transfer WMS budget allocation from PROC to M&R BC (complete)
- Capture Backlog requirements/deferred work in WMS (in process)
- Be proactive in preventable maintenance
  - Example: scouring of foundation B-4 Southside
- No difference between Urgent & Routine
  - Contractors perform during normal work days/hours; not 24/7
- Fence Breach defined as anything that changes the integrity and/or reduces the “persistent impedance” characteristics

# Takeaways and Actions for CTIMR

from Nov 20, 2012 IPR

- Wage Grade road/fence maintenance
  - “A signed document of any kind by the landowner granting access to their land/roads is all the TI Division needs to continue WG work on those roads”
  - “Eventually RE Division needs to define roads with start/stop points and secure license agreements”
  - Leverage WG on QA and inspections of contractor-performed work (progressing, RGV/DRT/ELC/SDC)
